

34. WORLD PREMIERE: OLIVER KESSLER DESIGN

Rain3 is an indoor fountain from Oliver Kessler Design.

Located in the Interiors and Design section of the show will be Oliver Kessler Design, which will have the world premiere of its Rain3 indoor fountain. Inside a scalable cube illuminated plexiglass rods form the three dimensional image of falling rain. The outside colour and the colour of the illumination are up to the customer. RAIN3 comes in two versions: Version one as a humidifier and air refresher, where water runs along the rods, and version two as a low maintenance waterless ambiance object, where the sound of rain is distributed by a digital sound processor.

Oliver Kessler Design will also be showcasing the Solitaire Punkah man-made ventilation device and its full range of Relaxing Objects.

Peter Dowling explains: "This added item all around the world"

As part of the Hotel Show, a managers with the formulation Proactive spa championing and Sharon operations a East and Africa is keen to see show, hence partnership

"At the Spa part of the m to obtain up all those at the level of n that subscri — this way w suitable me that will ben or a business attend the n
